

REGEN: The Recycled Nylon

To create a sustainable living
environment for our future
generations

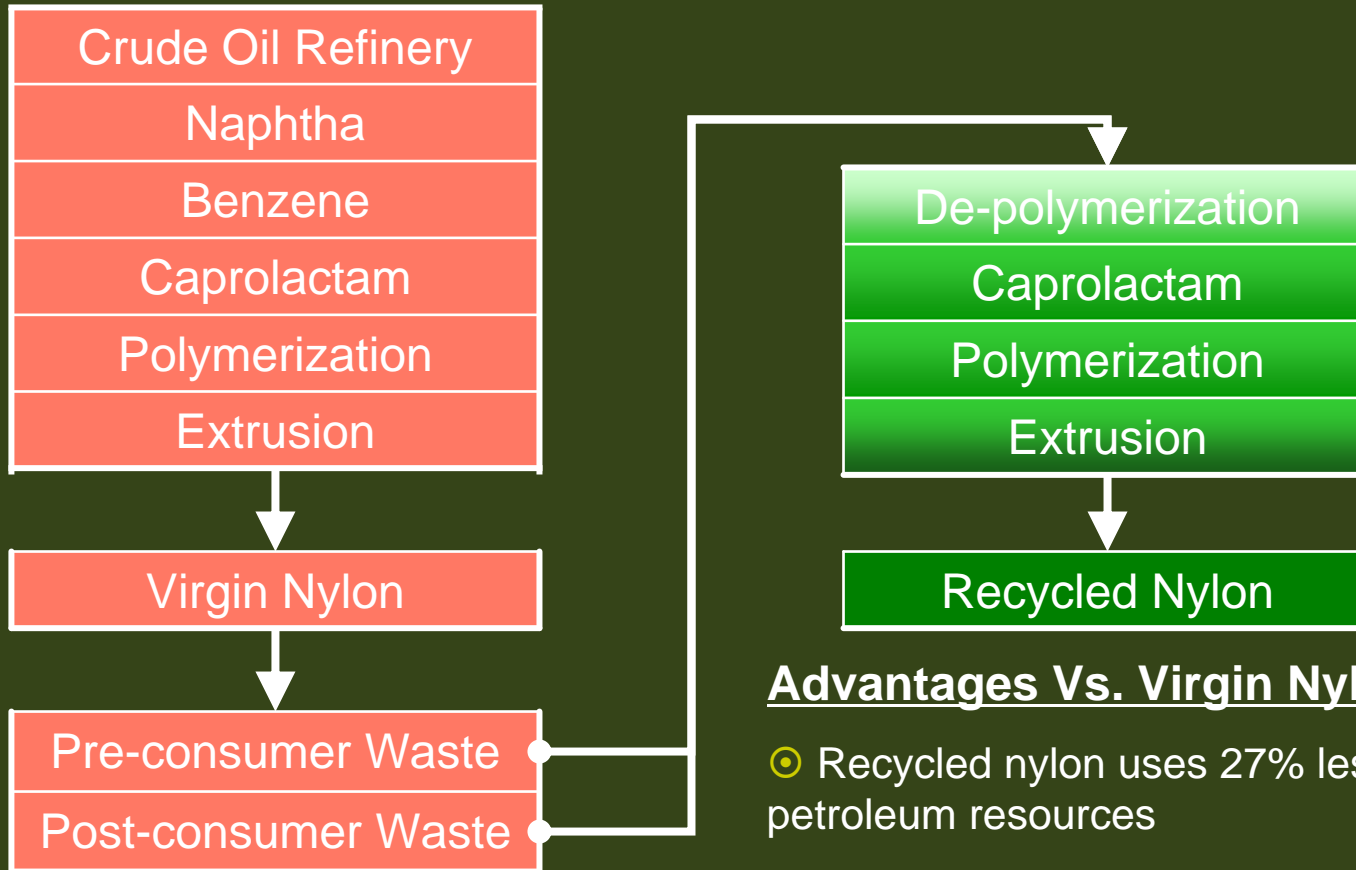

Why use recycled nylon?

- ⦿ Sustains the environment for future generations
- ⦿ Diminishes greenhouse gas emissions that lead to global warming
- ⦿ Prevent exhaustion of our limited natural petroleum resources
- ⦿ Minimizes the use of landfill sites and incineration
- ⦿ Reduces air and marine pollution

Our Recycling Process

Process Comparisons

Advantages Vs. Virgin Nylon

- ⦿ Recycled nylon uses 27% less natural petroleum resources
- ⦿ The recycled nylon process emits 28% less greenhouse gases
