Los Angeles, CA

Eco-Panda in partnership with Ocean Magazine, the nation's latest green magazine, will host their launch event at *Hard Rock Hotel, San Diego, CA* at the ultra-posh poolside venue, *Float*, on June 17th, 2009. The event features **Eco-Panda's** debut runway show featuring its eco-chic swimwear comprised of **MIPAN® regen™** recycled nylon. As Jet Set models cascade down the runway in the limited edition **Eco-Panda** collections, they'll reveal the much anticipated **Eco-Panda** couture collection exclusively to the event guests.

Eco-Panda's Summer 2009 Collection boasts fierce prints and electric hues complete with essentials including cover-ups and totes. The collection draws on global inspiration featuring design collections such as "*Montego Bay*", "*Tokyo Station*", "*Marrakech*" and "*Jungle Beat*". **Eco-Panda's Couture Collection** draws on retro inspiration and old Hollywood glamour. Whimsical styles, bold shades, and daring details are at the heart of this collection. Each collection is limited edition without plans for re-production when the styles sell through.

Art Rocks radio, where art, fashion and music collide, will host their June 17th show live from the event with a front row seat at the exclusive fashion show. Discover San Diego, Si TV, Green Girls.TV, & CNN Entertainment are just a few who will be present to capture history in the

making. Eco-tini's, courtesy of Blue Angel Vodka & TY KU will top the cocktail list while One Hope Wine toasts guests with their delectable wines. *Five lucky winners will take home Grand Prizes valued at \$1,000*, including treasures such as Eco-Panda limited edition swimwear. The first 100 RSVP's will receive the *Ultimate Swag Bag* filled with **Eco-Panda** & Ocean Magazine Summer Essentials.

"Responsible Fashion, Affordable Luxury". **Eco-Panda** is committed to being a green company, and utilizes all recycled materials and eco-friendly shipping methods. By using post consumer recycled nylon, **Eco-Panda** helps sustain the environment for future generations by diminishing greenhouse gas emissions that lead to global warming, minimizing the use of landfill sites and incineration, and helping to prevent exhaustion of our limited natural petroleum resources. In fact, recycled nylon uses 27% less natural petroleum resources, and emits 28% less greenhouse gases.

Eco-Panda apparel is available exclusively at www.eco-panda.com
